Integware, a Fort Collins based software company, seeks multiple top level junior/senior/graduate students for immediate business internships. We seek students that are available to work 15-20 hours a week during the school year and do not have employment lined up upon graduation. Juniors must be looking for full-time summer work to go along with employment during the school year. Positions are to start the end of January.

All Interns will be partnered with a mentor to help develop their careers. They will also go through extensive in-house and industry knowledge training. Integware is located a few miles from the CSU campus, near the intersection of Prospect and Timberline. We are on the Spring Creek bike path.

**Job Responsibilities:**
The student will participate in a variety of roles including finance, general business, and as a member of a project implementation team. Student maybe asked to act as a project manager’s assistant, software testing assistant, junior requirements analyst, doing a variety of business related special projects and/or finance assistant. This role would need to have strong Microsoft Excel and writing capability, as well as, an understanding of business process, use case development, test case development, and general web based application/system design.

**Job Requirements:**
- Business Administration, Finance, or CIS major
- Excellent Microsoft Excel skills
- Above average understanding of finance
- Strong interpersonal skills and self directed
- Ability to multi task
- Strong problem solving and communication skills (verbal/written)
- Reliable transportation and strong work ethic
